Dear Mr. Schaefer

It's with a great pleasure and sympathy I received your letter of the 10th December, with all the information and the so precious photocopies of your drawing of "apsidistrian" plan of Nafpion (it really invites me to go to Corfu!) but it's a very great pity you can't find the barracks' photo, that ~~would~~ be probably the only good one from a short distance.... Anyway, I do conserve the hope you will find it, perhaps, in another time!

For the barracks' architect (in their 1st phase → 1828-30) I have now very precise information, after a thorough research in the Greek General Archives, and I will publish it. Müller perhaps had been involved in the reconstruction of the northern part of the barracks (1833) ₂

— ~~for~~ I would be very obliged to you if
you could give me further information
on Müller and his relation with
the barracks in Ager (in Lambrynick's
I have not found anyone).

If you come back in Greece
I will be very glad to meet you
and talk with you.

Sincerely yours

V. Dominico
