This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and small brown spots (foxing) scattered across the surface. A vertical crease is visible near the center, suggesting the page was once folded. The left edge of the page shows the binding of the book, with some dark material visible. The overall tone is warm and slightly yellowed, characteristic of old paper.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with visible creases and some minor discoloration or foxing, particularly towards the bottom right. There are faint, illegible markings scattered across the surface, which appear to be bleed-through from text on the reverse side of the page. The overall tone is a warm, off-white or light beige.
