INTRODUCTION

1. General

The information contained in the body of this work on officials of the German Kriminalpolizei was compiled from an official monthly publication of the Reichskriminalpolizeiamt, the "Mitteilungsblatt des RKPA", Part D - Personalnachrichten, - the numbers dating from October, 1941, up to and including July, 1944. The information concerns officials of both the Staatliche Kriminalpolizei (State Criminal Police) and the Gemeindekriminalpolizei (Municipal Criminal Police).

Since October, 1941, the requirements for promotions and the relationship between the upper and lower ranks in the Gemeindekriminalpolizei have been made to conform with those in the Staatliche Kriminalpolizei.

In October, 1943, the Gemeindekriminalpolizei, as such, was taken over by the Staatliche Kriminalpolizei; all Gemeindekriminalabteilungen with an establishment of more than ten officials were made Aussendienststellen of the nearest Kriminalpolizeileitstelle (KPLSt.) or Kriminalpolizeistelle (KPSt.), and those with an establishment of less than ten, Aussenposten of the nearest KPLSt. or KPSt.

Whenever it has been found that an official was working for the Gemeindekriminalpolizei, the three letters 'GKP' have been put after his police rank in this publication.

2. Qualifications for Entry

Personal qualifications for entry into the Sipo before the war were as follows:-

(a) SS Fähigkeit (SS qualifications) and Polizeidiensttauglichkeit (fitness for Police duties).
(b) Age between 18 and 35.
(c) Membership in the NSDAP or one of its Gliederungen (Branches).
(d) Possession of the Reichssportabzeichen (National Sports Badge) or SA Wehrabzeichen (SA Defence Training Badge).
(e) Mastery of shorthand or typewriting.
(f) Passing of an Eignungsprüfung (Classification test) ascertaining the candidate's general background.

During the war these requirements have been modified and the possession of the SA Wehrabzeichen and the Reichssportabzeichen is no longer necessary.

By specific order of the Chefs of the SD and Sipo a fixed proportion of all members of the Security Police who enter the SS are drafted into the Sicherheitsdienst des Reichsführers SS (Security Service of the C. in C. of the SS).

3. Training

Candidates receive a nine months training with the authorities of the Security Police and a three months course at the Criminal Specialists School, after which they take the Fachprüfung I (Specialists Examination I).

During the war, candidates for the Sipo are drawn not only from the Schupo and Militäranwärter (candidates who have served with the Armed Forces) or the Anwärter of the Reichsarbeitsdienst, but also from the freie Berufe (free Professions) particularly the Civil Service. The candidate undergoes a probationary period of 12 months, during which time he holds the rank of Kriminalassistent-Anwärter (Criminal Assistant Candidate) and he enters the SS as Staffelmann where he can rise as high as SS Untersturmführer. When he has passed Fachprüfung I he is appointed ausserplanmässiger Kriminalassistent (Supernumerary Criminal Assistant). During his training period he receives living allowances only, and after his appointment, Diäten (Food and Lodging Allowance).

The candidate from the Schupo holds the rank of Kriminalassistent zur Probe (Probationary Criminal Assistant), or if he has had more than 12 years service, Kriminaloberassistent zur Probe, during which time he receives his Schupo pay. After passing Fachprüfung I he is appointed planmässiger Kriminalassistent (Regular Criminal Assistant) or Kriminaloberassistent (Chief Criminal Assistant) respectively.

On entering the Sipo, the Militäranwärter and Anwärter of the Reichsarbeitsdienst become Kriminaloberassistentenanwärter and receive the same salary as in their previous posts.

This distinction between the terms "zur Probe", applied to a man who is already in the Police, and "Anwärter", applied to a candidate from outside the Police, should be borne in mind.

4. Grades and Categories of Officials

Officials (Beamten) of the Sipo are graded, according to rank in the following Laufbahnen (grades, literally 'careers'):-

Unterführerlaufbahn	NCO grade
Führerlaufbahn des mittleren Dienstes	Officers' Intermediate grade
Führerlaufbahn des gehobenen Dienstes*	Officers' Senior grade
Führerlaufbahn des leitenden Dienstes	Officers' Superior grade

Details of grade, rank and promotion are discussed in the following paragraphs.

The two categories of service in the Sipo are the Vollzugsdienst (Executive Service) and the Verwaltungsdienst (Administrative Service); the Executive Service, which carries out Sipo tasks, includes officials of NCO, officers' intermediate and officers' senior grades.

The Administrative Service includes officials of the senior and superior grades.

5. Ranks etc.

The following table gives the ranks, with the various grades, and other details.

It should be noted that the age of appointment given in the case of the ranks in the gehobener Dienst applies to candidates drawn from outside the Police; thus an official promoted from the mittlerer Dienst would normally be about 55 years old.

The ranks in the Vollzugsdienst (Krim. Ass. etc.) are bracketed with the corresponding ranks in the Verwaltungsdienst (Pol. Ass. etc.)

* It is believed that the gehobener Dienst is in effect a higher part of the intermediate grade; this is suggested by a reference in a document dealing with the RSHA, to the 'gehobener-mittlerer' ('Senior Intermediate') Dienst.

6. Promotion

It was found expedient to co-ordinate the system of promotion in the Sicherheitspolizei and in the Sicherheitsdienst, as far as the various Laufbahnen (grades) would permit, and promotion is only granted according to the Planstelle (W.E. or T.O.). The minimum length of service in each rank and the passing of examinations are necessary before promotion is considered. Exemption is only possible after exceptional achievements.

Only the Heimatdienstelle (original office of assignment) may recommend abgeordneten Manner (men on detached service), but the Beschäftigungsdienststelle (place of employment) must send a reference, and may recommend the men to the Heimatdienststelle in the first place.

The system of promotion in evidence in the Sipo Laufbahnen since 1 Oct. 43 is discussed in following paragraphs.

7. Promotion in the Unterführerlaufbahn

For a Kriminalassistent (Krim. Ass.) to be promoted to Kriminaloberassistent (Krim. Ober. Ass.) he must normally have completed 12 years service; to make up this total, years of previous service with Party, Police or Administrative authorities may be reckoned.

The ausserplanmässiger Krim. Ass. discussed in para. 4 receives a regular appointment after 5 years, and may then, after 3 more years service, be promoted to Krim. Ober. Ass.

A Krim. Ass. reaching the age of 35 may be promoted to Krim. Ober. Ass. regardless of existing vacancies.

The Krim. Ober. Ass. in the Vollzugsdienst and the Pol. Ass. in the Verwaltungsdienst (note that there is no rank of Polizeioberassistent), be promoted to Sekretär after two years service, or one year of outstanding achievement.

If on promotion to Krim. Ober. Ass. or Pol. Ass., an official has more than 13 years service, he can become Sekretär after the fifteenth year, but not before serving one year as Krim. Ober. Ass. or Pol. Ass. respectively.

The Krim. Ober. Ass. or Pol. Ass. may take a Führerlehrgang (Officers' Training Course). This may only be taken twice, and if the candidate fails twice he may become a Kriminal or Polizei Sekretär, but can only achieve the rank of SS Sturmscharführer. If he does not belong to the SS, the official can not join a Führerlager (Officers' Training School).

8. Promotion in the Führerlaufbahn des mittleren Dienstes

On passing the Führerlehrgang, the rank of SS Untersturmführer is bestowed with the title Kriminalsekretär or Polizeisekretär and the candidate becomes an official in the Führerlaufbahn des mittleren Dienstes.

After 3 years he may be promoted to Kriminalobersekretär or Polizeiobersekretär, and after a further 3 years to Kriminal-Inspektor, with the corresponding SS rank of Obersturmführer.

Officials who do not belong to the SS must undergo a successful course in a Führerlager and take the specialists examination, Fachprüfung II, before being promoted to Obersekretär and higher.

9. Promotion in the Führerlaufbahn des gehobenen Dienstes

a) Recruiting from outside the Police

Apart from the normal channels of promotion from the Führerlaufbahn des mittleren Dienstes to the Führerlaufbahn des gehobenen Dienstes, men are also taken from free professions into the gehobener Dienst if they fulfil the following conditions:-

(i) They have passed the grosse Staatsprüfung (Final National Examination) framed according to the regulations of the Bestimmungen der Justizausbildungsverordnung (Legal Training Decree).
(ii) They are politically reliable.
(iii) They possess an unsullied record.

Candidates are selected by personal interview at the Reichsicherheitshauptamt (RSHA - National Department of Security), their SS qualifications and fitness for police duties having been previously ascertained.

The application for candidature must, among other things, include the following documentary evidence:-

(i) Certified copy of a graduation certificate from a höheren Lehranstalt (School immediately below graduate university level) resembling a Universitätsreife (College entrance diploma).

(ii) Certified copies of a document attesting to the completion of labour and military service.

(iii) Certified document attesting to the passing of the erste juristische Staatsprüfung (first National Legal Examination).

(iv) Membership card in the NSDAP or one of its Gliederungen (Branches).

(v) Evidence of knowledge of shorthand.

(vi) Evidence of athletic ability and possession of the Athletic Badge.

(vii) A certified copy of a document attesting to the passing of the grossen Staatsprüfung (Final National Examination).

(viii) An agreement by the applicant to serve at least five years after acceptance for service.

The candidates then undergo one or two years preparatory training with the authorities of the Security Police and are subsequently drafted into the Vollzugsdienst (Executive Service) or the Verwaltungsdienst (Administrative Service).

b) Promotion in the Vollzugsdienst

The candidates who enter the Vollzugsdienst take a further nine months course at the Führerschule (Officers' School) of the Sipo in BERLIN-CHARLOTTENBURG, and must pass the Kriminalkommissar examination. Candidates from free professions are called Kriminalkommissaranwärter and hold the rank of SS Hauptscharführer during their training. After passing the examination they are appointed Hilfkriminalkommissare and are charged with the supervision of a Kriminalkommissarstelle as Kriminalkommissare zur Probedienstleistung (serving on probation). During this period they receive a living allowance but no salary.

The candidates coming from the intermediate grade executive service receive a similar training and become Kriminalkommissar zur Probe (z.Pr.) during which time they receive their old salaries. Appointment as Kriminalkommissar follows after at least 6 months Probeleistung (probationary Service).

After three years service the Krim. Kommissar is promoted from SS Obersturmführer to Hauptsturmführer, and two years later he becomes a Kriminal rat. The rank of SS Sturmbannführer is bestowed after another three years and two years after that the Krim. Rat is promoted to Kriminal-Direktor.

Officials who are not SS officers may be promoted to Krim. Rat or Polizeirat without undergoing a Führerlehrgang if they are 50 years of age, and to higher ranks if they are over 55 years.

* The proportion of Krim. Oberassistenten to Krim. Sekretäre to higher ranks is regulated in Reichsstellenverhältnis in the ratio 50:40:10.

c) Promotion in the Verwaltungsdienst

A Polizei-Inspektor, (the equivalent of a Krim. Inspektor in the Vollzugsdienst), may be promoted from SS Obersturmführer to SS Hauptsturmführer after three years and become Polizeioberinspektor. After a further two years he becomes a Polizeirat, and two years later an SS Sturmbannführer.

Promotion from Pol. Rat to Amtsrat follows after 5 years.

The applicant accepted from the free professions becomes a Probeassessor during his period of probation in the Verwaltungsdienst, and if he is considered suitable receives a permanent appointment as Regierungsassessor.

In both the Vollzugsdienst and the Verwaltungsdienst officials of the Sicherheitspolizei who are not SS Führer may be promoted without taking a Führerlehrgang if they possess or are eligible for the Treudienstehrenzeichen, received for 25 years distinguished service. If they hold the highest Kriegsorden (war medal) they are, by decree, entitled to special privileges.

10. Promotion in the Führerlaufbahn des leitenden Dienstes

The Krim. Direktor of the Vollzugsdienst becomes a Regierungs und Kriminalrat after five years, but a Krim. Rat with special aptitude and suitability may become a Reg. und Krim. Rat after five years, particularly if he has studied law.

Before a candidate in the Verwaltungsdienst can receive a regular appointment as Regierungsrat he must have served at least two years in the Reichs-, Staat-, oder Kommunaldienst (National, State or Municipal Service), reckoned from the day he passed the Final National Examination.

To be promoted to Regierungsrat the Amtsrat must have completed five years service in that capacity, but Reg. Amtmänner and Polizeiräte with special qualifications and ability may, after their five years service, be appointed immediately to the post of Reg. Rat, especially if they were lawyers prior to joining the Sipo.

Advancement to Oberregierungs-und Kriminalrat or Oberregierungsrat, and to Reg.-und Krim. Direktor or Regierungsdirektor, and finally to Reichskriminaldirektor to Ministerialrat, in the Vollzugsdienst and the Verwaltungsdienst respectively, is made to men of outstanding merit, and in accordance with the number of vacancies in the organisation chart according to the allgemeine beamtlichen Bestimmungen (General Civil Service rulings).

11. SS-Führerschulen der Sipo

Some explanation should also be given of a Führerlehrgang (Officers' Training Course), since it has been mentioned several times as a prerequisite for promotion.

The purpose of this course is not the assimilation of a fixed amount of general or professional knowledge, but the evaluation of a candidate's personality according to his character and behaviour, his soldierly bearing and National Socialist outlook. It also encourages friendship between members of the Gestapo, Kripo and SD, all of whom take the same course and the same examinations, and must fulfil the same requirements in order to finish the course successfully.

There is, however, a great difference in the standard required from men with only elementary school education and that required from men with a secondary or university education. Men with college degrees not only have to possess more political knowledge but must also have an extensive knowledge of professional subjects. Those with only an elementary education, however, must show that they understand and are interested in political developments and that they are familiar with all problems of the National Socialist Movement, especially with reference to the SS.

The course may only be taken twice.
It lasts three weeks and the curriculum consists of three subjects:-

Weltanschauliches Wissen (Political Education) - 70 hours
Basic Military Training - 45 hours
Sports - 15 hours.

Political education consists mainly of racial knowledge, the history of Germany and of the National Socialist Reich, the history of the enemies of the Reich - Jews, Free Masons, Marxists and political churches - and economic world history.

Military training entails the use of light weapons, terrain intelligence, tactics and close order drill.

NOTE: Classification of the Information in this Report.

The information has been arranged as far as possible under the different Kriminalpolizeileitstellen, since the central personnel files are usually kept there. The following discrepancies, however, should be noted:-

i) BRESLAU/KATTOWITZ

The KPLSt. BRESLAU administered the entire provinces of Upper and Lower Silesia until 10 November, 1941 when the KPSt. KATTOWITZ was raised to the status of a Leitstelle with administrative supervision of the Kriminalpolizeistellen OPPELN and TROPPAU. As a result, many officials shown here as working for KPLSt. BRESLAU may actually belong to KPLSt. KATTOWITZ.

ii) WIEN/SALZBURG

Until September, 1942, SALZBURG was only a KPSt. so that personnel working for SALZBURG was shown under KPLSt. WIEN, but since this date SALZBURG has been a separate KPLSt., with the result that a number of officials now working for KPLSt. SALZBURG will still appear under KPLSt. WIEN.

iii) MÜNCHEN/NÜRNBERG

Until September, 1942, NÜRNBERG was administered by KPLSt. MÜNCHEN. Since then, however, NÜRNBERG has been an independent KPLSt. and many of its personnel may, as a result, still appear under KPLSt. MÜNCHEN.

iv) GENERAL GOUVERNMENT

No KPLSt. exists in General Gouvernment and it appears that the personnel files are kept by B d SP u SD KRAKAU, but for reasons of expediency this chapter was named General Gouvernment as all officials shown there come under this heading.

v) WEHRKREIS XII

X There was no Kriminalpolizeileitstelle in Wehrkreis XII until September, 1942, the northern part being under the supervision of KPLSt. FRANKFURT a.M and the southern part under KPLSt. STUTTGART. But since that date, the Kripo personnel working in Wehrkries XII have been shown separately under the central control of I d SP u SD WIESBADEN although no separate KPLSt. was formed for this Wehrkreis.

An attempt has been made to put all the officials working in Wehrkreis XII under a separate Section headed I d SP u SD WIESBADEN, but there will be many cases of officials who are really working in Wehrkreis XII still appearing under KPLSt. FRANKFURT a.M. and KPLSt. STUTTGART.

In this connection it should also be pointed out that a number of officials appeared as being directly controlled by the B d SP u SD in METZ, and they have accordingly been listed under that heading.

vi) STRASSBURG

In September, 1942, STRASSBURG was raised to the status of KPLSt. and its personnel is listed accordingly, but a number of these officials may still appear as working for other authorities in Wehrkreis V and XII - see STUTTGART, I d S WIESBADEN, B d S METZ, etc.

vii) RSHA

A separate section deals with all personnel working for the Reichssicherheitshauptamt. Wherever possible the Amt number is given, but in many cases officials were mentioned as working directly under RSHA and the Amt number not stated.

viii) FÜHRERSCHULEN DER SIPO

Section XXVII concerns transfers of officials to Führerschulen der Sicherheitspolizei, but it is uncertain whether these men are instructors or only attending courses.

ix) KRIPO/STAPO

The last Section deals with the transfer of personnel from the Kriminalpolizei (Kripo) to the Geheime Staatspolizei (Stapo) and vice versa.

In all cases where personnel has been transferred from the Stapo to the Kripo, the official is shown twice, once under this heading and again under the KPLSt. for which he now works. Officials, on the other hand, who have been transferred from the Kripo to the Stapo only appear in this Section.
