

The image shows a color calibration target, specifically a ruler and a set of color patches. The ruler at the top is marked in inches (0 to 8) and centimeters (0 to 20). Below the ruler is a series of color patches arranged in two rows. The patches are labeled as follows:

- Row 1: Blue, Cyan, Green, Yellow, Red, Magenta, White, 3/Color, Black.
- Row 2: Blue, Cyan, Green, Yellow, Red, Magenta, White, 3/Color, Black.

The patches are used for ensuring color accuracy in digital imaging and printing. The ruler provides a scale for the physical dimensions of the target.
