

Extract from letter from President
of

CEDAR CREST COLLEGE

November 25, 1935

"Above everything else, you gave them the piece of pottery which they appreciate very highly. So much so, that the students made a special service presenting it to me and I have authorized them to place it in a case which we have in our main hall with a card indicating its significance and who presented it. I want you to know this because it is indicative of the appreciation of the student body as well as the administration of Cedar Crest College. "
