Dear Wulf:

Thank you very much indeed for sending your two articles on Nauplia. I am delighted to have them, as well as news of you. I recall warmly my visits to Nauplia and hope that I may have a chance to come back for another visit in February, 1963.

I have been here at the Smithsonian two years, with a number of absorbing and interesting aspects to my work, which I greatly enjoy. Do let me know how you are, and if there is a chance of your coming to this country for a visit or our possibly meeting in Greece next winter.

With all good wishes,

Sincerely yours,

Dick
