Class IV. ( Sanskrit Shri Su

and for this  
reason he was  
totally ignor-  
ant of what to teach.

The class had sanskrit in this fourth period. The teacher however did not teach this subject. He wrote a few lines of hindi from memory on the black board and told the anings. Simultaneous answers were unnecessary and wrongly accepted. The whole work was irrelevant.

Class VII ( History: Shree Junas bage, Matriculated Certificated.)

The practice of making scheme was long discontinued on account of the shortage of paper. The lesson taught was the day's lesson.

The teacher did not clean the black board which was very dirty. He gave a lesson on Babar and the battle of Fathpur sikarri. As the teacher had to schemes of lessons or lesson-notes I could not judge whether he taught this as the days lesson or just at random. His narration was however simple and useful. Boys responded to his question well. There were no maps or sketches to illustrate lesson. On the whole the lesson was sadly lopsided.

Class V. ( Practical work Shree Abraham Kujur M.E., E.T. )

The teacher concerned is instructed to follow the syllabus with regard to the craft work. Spining has been organised.

Boys and girls were weaving chullus with kans grass. They were doing it well. but this was too easy job for the m. This is useful for small children of the L.P. section and not for class V. Spining has not been organised in the school at all and not even taklis have been prepared. More ever according to the sullabus the craft work and the teaching of other subjects should be closely correlated.

The time table was soon framed after the inspection.

The teacher had leave but the leave application was with the secretary, M.C.

2. This school was recognised as an M.E. School so far back as 1935, ups and downs are natural, but just now the school is bitterly disorganised. The school reopened after the Christmas holidays on 5-1-49, but up-to date neither the new Head master has framed the time-table for this year nor has been framed. I found several classes unemployed during the day. Boys and girls had no books or writing materials with them. Shree Jael Kujur V.M. C.T. an assistant master was absent without leave. Columns in the teachers attendance Register were not filled up which looked very suspicious. Previous nothing has been done to implement the revised syllabus. which was introduced last year. The teachers have not been paid up their salaries for the last three months. Accounts have been written and kept most irregularly. The cash a/c do not tally with the Acquittance Rolls and there are inescapable vacant spaces and blanks in the general fund cash Register. These irregular entries were signed by me for the future enquiries to be written up-to date and several items of income and expenditure were not entered the balance in the different funds could not be worked out the Pass Book A/C No 26008 in Simdega P.O. S/B contained as balance of Rs. 457/13/- under Head 49-6-48 in the names of the Secretary and the Headmaster.

The deposit of Rs 457/13/- is the sum of repairing, Library and the prize funds which can not be drawn for the teachers salaries under the grant condition

Sd/  
Hdm.

The sewing machine has been entered in the school stock book and kept in the school office. It is being used by the boys and girls in the sewing periods.

Sd/

The T.C. was cancelled.

The teachers are instructed to see that good discipline is maintained in the school. The house master has been ordered to look after the cleanliness of the hostel. The garden has been made. Planting will begin from June 1949.

tained a balance of Rs 457/13/- under date 19-6-48 in the names of the secretary and the Headmaster. but it is strange the poor teachers have not been paid inspite of this balance. The amount of grant-in-aid received during the current financial year, The building grant for hostel constructions (Govt No 2260 W.P. & d/ 15-9-47) amounting to Rs 1125/- the commissioner's discretionary grant of Rs 250/- (exact amount not revealed by records) or so made during 1947-48 for purchase of a sewing machine and the loans refunded by two previous head master if any have not been credited in the a/c at all. The hostel grant has not been spent as yet and its a/c can not be traced from records. This looks dangerously like temporary misappropriation of public fund. The sewing machine was not found entered in the stock Book which had not been written corrected for the past fifteen years is since 1933. It appears the machine has not been used for children teaching in sewing and it has been used as personal property by the Head Master and for pastor. This is exceedingly objectionable. Another grave irregularity is the payment of remuneration to auditors, who are members of the m.c. for auditing school a/c fees are not entered in the attendance and fee Register and Cash book in time. The school remained understaffed by one (or more) teacher up-to-date.

3. The admission Register for this year was in order but T.C.'s had not been cancelled inspite of previous orders of the Dy.I.S. The log book has not been written two sketchily.

4. Discipline is at a very low ebb in the school classes were found noisy and in disorder. The hostel was found in a miserable condition. It was very dirty not having been cleaned for months together. There is no garden and the compound is presents a dreary appearance.

5. The total number on the rolls on date was 233 (against 251 on 17-18/1/48 out of which 204 pupils were present at inspection). The average percentage of attendance for the passed six months was 85%. The passes at the last M.S.C. examination) Both the attendance and the results require much improvement).

6. The sk spl S.I. and local S.I. inspected the classes of the L.P. section and their findings are given below. Class II and III were found unemloyed and without any teacher. On examination the children were found very deficient in work meaning and pronunciation. Not a single child could write any correct sentences. Children of classes I and infant were found good in general conversation but weak in reading and arithmetic. Class rooms were found very dirty.

Prize-giving will be revised. Arrangements are being made for other games.

Sd/  
Hdm.

7. Prize giving has been given in this school. Library records were not available for inspection. Boys play hockey and there is no arrangement for other games. There is no student group Debating society of teachers association.

In the context of these findings and in view of the fact the rules for aided and recognised schools have been flagrantly violated members of which was not available for inspection) I hereby suspend the Govt grant -in-aid with effect from January 49. The aid will be restored if the irregularities pointed out, are rectified and the school is run on efficient lines according to the rules given in the Education code.

Sir,

With reference to your memo No. 10 dated 30.9.47 on the - subject of moving the Board of Secondary Education for giving - recognition to your proposed H.E.School, I have the honour to invite a reference to letter No. 3334 dated 23.5.47 from the Inspector of Schools, Chotangpur Dvn., a copy of which had been forwarded to you in this office Memo No. 713 dated 31.5.47, and to state that in face of definite directions of the Inspector of - Schools to appoint qualified teachers before any recommendation is made for recognition of the school, I am quite unable to forward your petition to my superior officers for further action.

In this connection, I should like to note further that if you can not appoint qualified teachers in your staff, it will be better for you to liquidated the school altogether.

You should also note for your future guidance that such petitions must always be submitted in half-fools-cap size papers and not in the size of papers you have submitted this one.

I have the honour to be,

To, The Head Supervisor

Luth. Schools Ranchi.

no. 617 of 22-7-47.

Date Kinkel the 18<sup>th</sup> July 47.

You must work hard to raise the necessary fund for the school and the C. C. and also bear the Federation and their wish to the next year.

with reference to your memo No 420-

421 of 11-7-47, that the memo No

25 of 5-7-47 of this office was

ready for despatch, but for want

of stamps, it could not be

sent earlier than 11<sup>7</sup>/<sub>47</sub>. It is hoped

it must have reached you by now

and it will enable you, Sir, to

set aright the matter even with

the Departmental Authorities.

2. As my memo No 29 of 11-7-47

inclusive of the admission fee etc. Taking the account of total due in schooling fee the average so to say is Rs 11/5/- per month.

(a) Ilaka Grant: The C.C. as is the standing rule has to pay towards the School @ of Rs 5/-.

Is not it? If so, then again there is mistake in fixing

Rs 13/- to be given by the Ilaka.

The five p.c. is rupees eleven and annas five and some pice.

I roughly calculated and asked the Ilaka Treasurer to give Rs 11/11/- and he has begun to do so as the 5% contribution from the Ilaka.

Summing up my above statement ~~and~~ in point 3, I beg to request the Church Council through you that the C.C. very kindly take the following

Page 4

figure on the income side:-

|                  |                  |
|------------------|------------------|
| Fees - Rs 115/-  | } Total Rs 273/- |
| G. A. " 56/-     |                  |
| Flakas 12/-      |                  |
| C.C. 74/- } 90/- |                  |

Thus, kindly increase the C.C. grant by <sup>only</sup> Rs 16/- more.

I am now engaging myself and concentrating my attention to recoup the school's Advances from Secretary, <sup>taken</sup> before my taking charge. Because the Flakas had kept quiet in giving 50% to the school for a long time at least more than a year, ~~in~~ <sup>on</sup> the whole on the one hand, and it seems the late H. master also had done the same on the other.

4. A few words just at this time about the High

School Section side.

Fund:- Some or few collections have been going on and being despatched to the Treasurer now and then, and as I understand, some cash and whole in kind are just in the Paacharakpans where they have been collected. The <sup>present</sup> ~~treasurer~~ is not in a position to give any sort of <sup>definite</sup> statement. All the Catechists, especially, have been supplied with a form to fill up and submit it to the Glacken Chairman through the Parish chairman. As soon as they are collected, I shall be able to tell the financial position or the asset of the School in question.

Correspondence is going on still in order to get permission to deposit the Gov. Security money in the Savings Bank of the P. Office. You would kindly see and refer the matter to the Superintendent.

very late now. But you can fish  
out the secret and please let  
us know if any.

Staff: We were hearing that  
some two of our graduates had  
been entrusted in search of  
a graduate for Kinkel (by C.E.).  
I see even now, that the C.E.  
ought to take up the matter of  
this school seriously <sup>and kindly</sup> as in  
duty bound for this matter  
involves the whole State. From  
this side we shall and will feel  
and do our part whole heartedly.

I paid a visit to-day to this school along with the circle sub-inspector of schools, (Simdega West circle.) The school is being held in one of the Mission Bungalows. Space for the present, appears to be sufficient.

The total roll number of the school is 292, in all including girls in the different classes. To-day the attendance was found to be as follows:-

Class VI 46/49, V 40/48, IV 36/46.

IV<sup>A</sup> 27/34, IV<sup>B</sup> 13/20, III 10/16, II 14/21, I 15/20 and Infant class 30/38. =  $231/292 = 79\%$ .

The percentage of attendance is not very satisfactory. Endeavours should be made to increase it soon.

The average roll of roll number for the last 6 months has been 27266 against 274 of the corresponding period of the last year. The average daily attendances for the same periods have been 222 and 239, giving percentages of attendances to be 83 and 89. respectively. The figures show that there has been some decrease in the percentage of

Attendance than for the same period of the previous year. Leave to study on carriages etc. will be stopped which is one of the factors of decrease in attendance. has been noted above, the teachers should try their best to increase it soon.

The total number of boarders count 67 in all. The rest attend school either from their own homes or from the homes of their near relatives.

The Government aid, per month to this school is Rs 56.

Application for the same has already been drawn up February 1947. Continuation of this Government grant was sanctioned up to February 1947, only. and as such, the authorities ought to apply soon by the Head.

Supervisor,

for its continuance. The average income from fees was Rs 115/- per month last year, and income from other sources has been shown to be Rs 36. + Rs 37 = 63/-.

Thus the average total income last year per month was Rs 234 in all. This amount if realised timely is barely sufficient to meet the expenses of the school.

The M.C. resolved that the authorities will have to find out some more money. It should, for better running of the school, regularize her contribution to the school.

There are altogether 7 teachers at present in the school. The Head master has passed his J.A. Examination. The second teacher is a Matric passed hand and has passed the Art of Teaching Examination. The third teacher is a V.M.C.T. while the fourth one is V.M. only. The rest of the three teachers are middle trained hands. None of them is being paid less than Rs 15/- P.M. The teachers have received their pay up to December 1946 only. It is hoped that they will get their pay for January to May 1947 soon.

By now the teachers have been paid up to May 1947.

The present expenditure on the pay of the staff is Rs 208/- per month. The contingent expenditure including the pay of the school servant is not less than Rs 15/- per month. A sum of Rs 10/- has also to be deposited per month for repair of the school building.

Regular monthly subscriptions to press and library accounts @ Rs 2/- P.M. at the least is also required.

As such the total monthly expenditure is not less than Rs 237/- per month; whereas an average income of Rs 234/- only per month during last year, has been shown.

The demand has been fulfilled. It is shown that the school is in need of at least one more teacher.

SARBH V.

trained teacher with at least a minimum pay of Rs 15/- per month. The authorities must see their ways to appoint him soon and find out the necessary amount. Class IV has been duplicated since last year, but sanction for doing so has not been sought for. This is irregular. Whenever any class has to be duplicated departmental sanction must be obtained.

Noted for  
future action.

In the General Cash book, no balance has been shown. However in the subsidiary accounts the balances are shown to be as follows:-

|                    |                          |            |
|--------------------|--------------------------|------------|
| Balance on 1-2-47. | (I) Contingencies        | Rs 47/3/9  |
|                    | (II) Repairs to building | " 333/3/6  |
|                    | (III) Prize account - "  | 68/13/6    |
|                    | (IV) Library account "   | 19/12/3    |
|                    | (V) Athletic account "   | 129/9/-    |
|                    | Total                    | Rs 598/9/- |

Thus a sum of Rs 598/10/- ought to be in pass book. However, the last deposit in the pass book has been made on 28-8-45 only, and the total deposit on that date was Rs 140/1/4, only. Thus there is difference of Rs 598/10/- minus Rs 140/1/4. = Rs 458/8/8-

The Head master informs me that he has been utilising all the money available in giving pays to the teachers, and as such, has not been able to deposit any amounts monthly. This is unsatisfactory. The authorities must see that the teachers are paid regularly from funds other than the funds meant

Rs 400/- have EXPRESSLY for different heads. The sum of Rs 458/8/8 been deposited must be found out at once and deposited in the Savings in the School bank account and a report submitted to me. Pass Book, so now the P. Bk has Rs 540/-.

SABH Vm.

5/7

In future monthly contributions to repairs to buildings, prize, library and athletic account, must be deposited monthly in saving Bank account. If this is not done, there is no likelihood of the school getting any further aid from Government. Funds allotted for the different purposes must be expended on those heads only and not on the pays of the teachers. If the mission authorities are unable to pay the teachers regularly from other sources than from the funds noted above, it is better for them to close down the school.

The Managing Committee also appears to be very slack in matters regular sittings. Its last sitting was held as far back as on 18-1-45. Since then, it has no sittings at all. It is evident also that the members have been now too long in the Committee and have thus become too lethargic. They must be replaced at once and the Managing Committee reorganised according to provisions made in the Education code by young, energetic and active hands, so that they may do their best to reorganise the financial condition of the school as early as possible.

85. admissions have been made up-to-date. All the columns of admission Register should be filled up according to rules. The transfer certificates received from the boys seeking admissions, should be cancelled and pasted in a guard file. It is desirable that signatures of persons taking transfer certificates be taken on the back of the counterfoils retained in the school.

Members have been newly elected for the M. C.

There is one L.P. Scholarship holder in the school, who is to get his scholarship from January 1946, but that his bill has been submitted by the Head master for payments on 1-2-47, only, due to the fact that no scholarship card so long, had been received by him.

The student has been paid his scholarship.

A stock Register of furnitures in the school, teachers' leave Register, and a book of Supervision work done by the Head master, should also be maintained in future over and above the registers that are already maintained in the school. A list of registers required to be kept by all schools, has been given in art 187 of the Education Code. The Head master will do well to consult it.

The M.S.C. Results of the school for the last three years have been as follows:-

| Year. | No on the roll. | No sent up. | No Passed. | No of distinction gained. | No of sch gained. |
|-------|-----------------|-------------|------------|---------------------------|-------------------|
| 1944, | 49,             | 49.         | 25.        | 1.                        | —                 |
| 1945, | 51              | 42,         | 40,        | 2.                        | —                 |

The percentage of passes last year has been 84%.

This is on the whole is satisfactory. However endeavours should be made to make fit all the pupils in class III to be able to appear in the M.S.C Examination. If the percentage of passes is taken from the total roll number for the M.S.C. Exam on the roll, it comes to 72% only.

There are altogether 8 black boards, only, in the school. Each class must have at least one black board. The dual desks number 50 in all. These are barely sufficient for use in classes VI. and VII. Classes up to V have nothing as writing surfaces before them. This is not bad enough. Classes IV and V must be provided with dual desks or single high desks with proper materials to sit on and classes up to III with low single desks.

Attempt is being made to provide

all classes with

sufficient dual

desks.

SABH. Vm.

These may be dispensed with, in infant class, but not in classes I, II, and III. The mission authorities and the managing Committee must see to it, at once.

I went round the classes to see the improvements that are being made in respect of the studies, they are making of different subjects. The pupils, as a whole appear to be very shy in giving answers to questions put to them. This should be removed from them.

A debating-sort of mass-class of a period a week will be started in order to remove the shyness and widen the general knowledge of the students. Endeavours may also be made to expand common sense, of the pupils, so that it may be helpful to them in their future lives. They should not be too bookish, but should rather be practical men and women with broad common senses.

I paid a visit to-day to this school along with the circle sub-Inspector of schools (Simdega West Circle). The school is being held in one of the mission bungalows. Space for the present, appears to be sufficient.

The total roll number of the school is 292 in all including girls in the different classes. To-day the attendance was found to be as follows:-

Class VII.46/49,  
VI.40/48, V.36/46, IV.A. 27/34, IV.B.13/20, III.10/16,  
II.14/21, I.15/20 and infant class 30/38 - 231 /292 79%

The Headmaster and the staff asked to improve the attendance & roll number to the best of their ability.

The percentage of attendance for the last 6 months has been 266 against 274 of the corresponding year period of the last year. The average daily attendance for the same periods have been 222 and 239, giving percentages of attendance to be 83 and 89 respectively. The figures show that there has been some decrease in the percentage of attendance than the same period of the previous year.

The total number of boarders count 67 in all. The rest attend school either from their own homes or from their homes near relatives.

The Government Aid, per month, to this school application submitted is Rs.56/-. The same has already been drawn up to February 1947. This Government grant was sanctioned up to February 1947, only, and as such the authorities ought to apply soon for its continuance. The average income from fees was Rs.115/- per month last year and income from other sources, has been shown to be Rs.36/- + Rs.37/- = 63/-

Noted.

Thus the average total income last year per month was Rs.234/- in all. This amount if realised timely, is barely sufficient to meet the expenses of the school. The authorities will have to find out some more money for better running of the school.

Now the Church Council. There are altogether 7 teachers at present in the school. The Headmaster has passed his I.A. It is hoped C.C. will pay for that they will get their pays for January, 1947, soon. June & July, within this month.

The present expenditure of the pay of the staff is Rs.208/- per month. The contingent expenditure, including the pay of the school servant, is not less than Rs.15/- per month. A sum of Rs.10/- has also to be deposited per month for repair of the school building.

Regular monthly subscriptions to prize and library The present C.C. grants accounts @ Rs.2/- p.m. at the least, is also required. is Rs.74/- p.m. The dept. As such the total monthly expenditure is not less than has not been requested than Rs.237/- per month.; whereas the average income of to increase the G.A. of Rs.234/- only per month during last year, ~~taxes~~ ~~required~~ has been shown.

Babu Pilgrim Tete,

future.

A perusal of the roll numbers in the different classes shows that the school is in need of at least one more trained teacher with at least a minimum pay of Rs.15/- per month. The authorities must see their way to appoint him soon and find out the necessary amount. Class IV has been duplicated since last year, but sanction for doing so has not been sought for. This is irregular. Whenever any class has to be duplicated, departmental sanction must be obtained.

p.t.p.O.

In the genral cash Book, no blance has been shown. However in the subsidiary accounts the balances are shown to be as follows:-

|                   |                          |             |
|-------------------|--------------------------|-------------|
| Balance on 1.2.47 | (1) Contingencies.....   | Rs.47/3/9   |
|                   | (11) Repairs to Building | Rs.333/3/6  |
|                   | (111) Priz account       | Rs. 68/13/6 |
|                   | (IV) Library account     | Rs.19/12/3  |
|                   | (V) Athletic account     | Rs.129/9/-  |
| <hr/> Total       |                          | Rs.598/10/- |

Thus a sum of Rs.598/10/- ought to be in the pass book. However the last deposit in the pass book had been made on 28.8.45 and the total deposit of that date was Rs.140/1/4 only. Thus there is defference of Rs, 598/10/- minus, Rs.140/1/4 - Rs.458/8/8.

The Headmaster asked to see that the instruction is strictly followed. The former Hdm. Mr. A. Lakra has been transferred and Rev. S.A.B. Lakra is now the Hdm. The M.C. has been asked and the A/cs are being audited. An up to date report of the account will be submitted as soon as audit report is received.

The Headmaster informs me that he has been utilising all the money available in giving pays to the teachers, and as, such, has not been able to deposit any amounts monthly. This is unsatisfactory. The authorities must see that the teachers are paid regularly from funds - other than the funds meant EXPRESSLY for defferent heads. The sum of Rs.458/8/8 must be found out at once and deposited in the savings bank account and a report submitted to me. In future monthly contributions to repairs to buildings, prize, library, and athletic account, must be deposited monthly in saving Bank A/c. If this is not done, there is no likelihood of the school, getting any further aid from Government. Funds allotted for the different purposes, must be expended on those heads only and not on the pays of the teachers. If the mission authorities are unable to pay the teachers, regularly from other sources than from the funds noted above, it is better for them to close down the school.

The local secretary has been asked to see to the needful. The list of the new M.C. members will be submitted for approval to the Dept.

The managing Committee also appears to be very slack in matters of regular sittings. Its last sitting was held as far back as on 18-1-45. Since then, it has no sitting at all. It is evident, also that the members have been now too long in the Committee and have thus become too lethargic. They must be replaced at once and the Managing Committee re organised according to provisions made in the Education Code, by young, energetic and active hands, so that they may do their best to re-organise the financial condition of the school as early as possible.

Hdm. asked to note and follow the instructions.

85 admission have been made up-to date. All the columns of the admission register should be filed up according to rules. The transfer certificates received from the boys seeking admissions, should be cancelled and pasted in a guard file. It is desirable that signatures of persons taking transfer certificates, be taken on the back of the counterfoils retained in the school.

There is one L.P. Scholarship holder in the school, who is to get his scholarship from January, 46 but that, his bill has been submitted by the Headmaster for payments on 4.2.47 only. Due to the fact that no scholarship card, so long, had been received by him.

A stock register of furnitures in the school, teachers leave Register, and and Book of supervision work done by the Headmaster should also be maintained in future over and above the registers that are already in the school. A list of Registers required to be kept by all school, has been given in Art.187 of the Education Code. The Headmaster will do well to consult it.

p.t.o.

The M.S.C. result of the ~~exam~~ of the school for the last three years have been as follows.

| <del>Year</del> | <del>No. on the roll</del> | <del>No. Sent up</del> | <del>No. Passed</del> | <del>No. Dist.</del> | <del>No. Scho.</del> |

| 1944            | 49                         | 49                     | 25                    | 1                    | -                    |
| 1945            | 51                         | 42                     | 40                    | 2                    | -                    |
| 1946            | 50                         | 43                     | 36                    | 9                    | -                    |

Hdm. asked to note and also to make better arrangements for the home study of the students.

The percent ge of pass~~es~~ last year has been 84% This on on the whole is satisfactory. However endeavours should be made to make fit all the pupils in Class VII to vbe able tp appear in the Middle school Examination. If the percent of passes is taken from the total roll number on the roll, it comes to 72% only.

There are altogether 8 blackboards only in the school. The local secretary, each class must have at least one Black Board. The duel and the Hdm. asked desks number 50 in all. These are barely sufficient for us to do the needful ~~in~~ classes V- and VII. Classes up to V. have nothing as w right earnest. tting surfaces before them. This is bad enough. Classes IV. and V. must be provided with duel desks or single low: high desks with proper materials to sit on, and calsses up to III ~~and~~ with single low desks. These may be dispens with, in Infant class but not in ~~ex~~ classes I, II and III. The Mission authorities and Managing Committee must see to it at once.

I went round t e classes to see the improvements that are being made in respect of the studies they are making in defferent subjects. The pupils as a whole, appear to be very shy in giving answers to Questions put to them. This should be removed from: them Endeavours may also be made to expand common sense of the pupils, should not be too bookish, but should rather be practical men and women with broad common senses.

Lutheran M.E. School Kinkel.

7.2.47.

I paid a visit to-day to this school along with the circle Sub-Inspector of schools, (Simdega West Circle.) The school is being held in one of the mission Bungalows. Space for the present, appears to be sufficient.

The total roll number of the school is 292 in all, including girls in the different classes. To-day the attendance was found to be as follows:-

Class VII 46/49, VI 40/48, V 36/46, IV A 27/34, IV B 13/20, III 10/16, II 14/21, I 15/20 and Infant Class 30/38 = 231/292 = 79%.

The percentage of attendance is not very satisfactory. Endeavours should be made to increase it soon.

The average of roll number for the last 6 months has been 266 against 274 of the corresponding period of the last year. The average daily attendances for the same periods have been 222 and 239, giving percentages of attendances to be 83 and 89 respectively. The figures show that there has been some decrease in the percentage of attendance than the same period of the previous year. As has been noted above, the teachers should try their best to increase it soon.

The total number of boarders count 67 in all. The rest attend school either from their own homes or from the homes of their near relatives.

2. The Government Aid, per month, to this school is Rs. 56/-. The same has already been drawn up to February 1947. This Government grant was sanctioned up to February, 1947 only, and as such, the authorities ought to apply soon for its continuance. The average income from fees was Rs. 115/- per month last year and income from other sources has been shown to be Rs. 36/- + Rs. 37/- = 63/-

3. Thus the average total income last year per month was Rs. 234/- in all. This amount, if realised timely, is barely sufficient to meet the expenses of the school. The authorities will have to find out some more money for better running of the school.

4. There are altogether 7 teachers at present in the school. The Headmaster has passed his I.A. Examination. The second teacher is a Matric passed hand and has passed the Art of Teaching Examination. The third teacher is a ~~V.M.C.T.~~ V.M.C.T. while the fourth one is V.M. only. The rest of the three teachers are middle trained hands. None of them is being paid less than Rs. 15/- p.m.. The teachers have received their pays up to December 1946 only. It is hoped that they will get their pays for January 1947, soon.

a/c The present expenditure on the pay of the staff is Rs. 208/- per month. The contingent expenditure, including the pay of the school servant, is not less than Rs. 15/- per month. A sum of Rs. 10/- has to be deposited per month for repair of the school building.

Regular monthly subscriptions to prize and Library accounts @ Rs. 2/- p.m., at the least, is also required.

5. As such, the total monthly expenditure is not less than Rs. 237/- per month.; whereas an average income of Rs. 234/- only, per month during last year, has been shown.

6. A perusal of the roll numbers in the different classes shows that the school is in need of at least one more trained teacher with at least a minimum pay of Rs. 15/- per month. The authorities must see their ways to appoint him soon and find out the necessary amount. Class IV has been duplicated since last year, but sanction for doing so has not been sought for. This is irregular. Whenever any class has to be duplicated, departmental sanction must be ~~xxxxxxxx~~ obtained.

P.T.O.

In the general cash book, no balance has been shown. However in the subsidiary accounts the balances are shown to be as follows:-

|                    |                          |                     |
|--------------------|--------------------------|---------------------|
| Balance on 1.2.47- | (I) Contingencies -      | Rs. 47/3/9          |
|                    | (II) Repairs to building | Rs. 333/3/6         |
|                    | (III) Prize account      | Rs. 68/13/6         |
|                    | (IV) Library account     | Rs. 19/12/3         |
|                    | (V) Athletic account     | Rs. 129/9/-         |
|                    | <b>Total</b>             | <b>Rs. 598/10/-</b> |

Thus a sum of Rs. 598/10/- ought to be in the pass book. However, the last deposit in the Pass Book has been made on 23.8.45, and the total deposit on that date was Rs. 140/1/4 only. Thus there is difference of Rs. 598/10/- minus Rs. 140/1/4 = Rs. 458/8/8.

3 The headmaster informs me that he has been utilising all the money available in giving pays to the teachers, and, as such, has not been able to deposit any amounts monthly. This is unsatisfactory. The authorities must see that the teachers are paid regularly from funds other than the funds meant EXPRESSLY for different heads. The sum of Rs. 458/8/8 must be found out at once and deposited in the savings bank account and a report submitted to me. If this is not done, there is no likelihood of the school getting any further aid from Government. Funds allotted for the different ~~xxxx~~ purposes, must be expended on those heads only and not on the pays of the teachers. 10 85 admissions have been made up-to-date. All the columns of the admission Register should be filled up according to rules. The transfer certificates received from the boys seeking admissions, should be cancelled and pasted in a guard file. It is desirable that signatures of persons taking transfer certificates, be taken on the back of the counterfoils retained in the school.

The M.S.C. Results of the school for the last three years have been as follows:-

Further, I beg to say that Miss Chandro Khess mistress did not like to vacate her place on the plea that she has applied to you to cancel her transfer and its reply has not reached to her yet. महाराय,

मैंने सुना है कि किन्केल मिडिल स्कूल में टीचर (जुनियर) की जगह खाली है अतः मैं यह दरखास्त आप की सेवा में समर्पित कर उक्त स्थान के लिये उम्मेदवार खड़ी होती हूँ।

मैंने किन्केल M. E. स्कूल से १९३४ ई. में मिडिल की परीक्षा पास की। १९३६ - १९३७ ई. तक पटना जुनियर ट्रेनिंग में रही। वहां से सफलता पूर्वक निकल कर १९३८ ई. में मैं लखनऊ के खुन-खुनजी कन्या पाठ में टीचर थी। फिर १९३९ ई. से १९४० ई. तक लोहरदगा लड़की स्कूल में टीचर का काम किया। १९४१ ई. से १९४५ ई. तक मैंने नाईबासा के आध्वानन्द कन्या पाठशाला में काम किया। इस तरह कई साल तक टीचर का काम कर के मैंने इस काम का पूर्ण अनुभव प्राप्त कर लिया है।

मैं आप की सेवा तथा विचार के लिये अपने ट्रेनिंग सर्टिफिकेट और एक (Testimonial) की नकल साथ में देती हूँ ताकि आपको मेरे कार्य का ज्ञात हो।

यदि आप की दया मुझे निःसहाय दास पर हुई तो मैं सदा आप की कृतज्ञ बनी रहूँगी। मैं विवाहित हूँ मेरे दो बच्चे हैं, मैं अपना जीवन बड़ी मुश्किलता से व्यतीत करती हूँ। मेरे पति ट्रेनिंग गये हुए हैं।

Sir,

*Replied.

We the teachers of Lutheran M.E. School Kinkel humbly beg to lay before you the following facts for your kind and favourable consideration.

That the fixed C.C. grant of Rs 27/- is not sufficient to meet the deficit as the Roll number of the school can not be maintained constant throughout the year and hence the fee collection may vary from month to month. That the cost of living here is in no way cheaper than that of Ranchi. The rice here is being sold at 2 seers for a rupee and hence it would cost Rs 30/- p.m. for a family of four members, even if they take rice only. That, because of dearness, we all have been forced to take loans and we do not <sup>know</sup> how to repay them when C.C. is not prepared to pay us in full even in such hard times.

That to our humble mind it seems quite inconsistent when we find that workers at Ranchi get their full pay plus the

dearness allowance where as the workers at dehat,  
are neglected

Under these circumstances we humbly  
request you to kindly consider our case and  
pay the deficit from C.C. grant as usual and  
grant us <sup>the</sup> dearness allowance of Rs 10/- each  
Per month

I The C.C. has no sufficient funds  
to meet all the deficits. There is  
a deficit of Rs. 16,000/- in the Budget  
of the C.C. for the current year.

The local school M. Cs. and the Dakas  
are therefore urged to meet the  
deficits to the schools due to irregular  
and uncertain fee collections.

II Nor has the C.C. any provision for  
giving dearness allowance. The E.E.L. Press  
the Gossni H.E. & the Bethesda G.S. are paying  
some sort of D.A. out of their own funds.  
The C.C. is not paying them the D.A. The C.C.  
pays only the fixed grant to the schools.

III There is a little provision for ~~incre~~ giving some  
increment - for which Service Records are  
wanted - Please submit them immediately.

That our pay is very low and it has become quite impossible for us to maintain our family. Up to this time we have been pulling on with much difficulty and we all are in debt.

That we do not get any sort of dearness allowance and have no other source of livelihood and hence we now do not know how to maintain our family in future and how to pay our debt.

Dear Head master Lutheran M.E. School Kinkel.

Received your letter No. 35, 36, 37 all dated 19-8-46 thaks. In reply I would write the following :-

1. Stock of rice for the boarders:- In my opinion there can be two ways. first, send the boarders home, not all the boarders at a time, but group by group and they must bring something at least. Second, either borrow and buy rice for the boarding, or let the boarders pay money and then rice be purchased with the money.
2. C.C. Grant to the schools:- You did not submit the bills in time and they were received at a time when the treasury was empty. Sometimes it could not be sent due to the postal strike. The treasury is again empty. Any how attempts will be made to ~~the~~ send the money as soon as money comes in.

Sir,

I have the honour to state that the public of Kurdeg Thana intends to start a High school at Kinkel. And with this end in view they have started already started the first two classes with a graduate teacher, a qualified Sanskrit Pandit and another experienced assistant teacher. This section

This section of the proposed school is under the management of a provisional managing committee consisting of influential and representative local members.

The classes are conducted in a well suited missionary Bungalow of the local Lutheran Church.

Recently the D.C. Ranchi visited Kinkel and during his visit he went round the classes. A copy of his remarks is enclosed here with for your kind perusal. Therefrom it will be clear that a full fledged High school is a pressing need for the public of this locality. The public too is enthusiastic on the point and have gone so far as to raise the fund of nearly Rs 2000/- towards the establishing a stable fund for the proposed school.

I therefore request you to give your immediate Provisional approval for the first two classes that have been already started

This happens to be the first visit of the D.C. to Kinkel in the last several years. I also find that no inspecting officer of the Education Department has yet visited the school. I ~~went~~ went round the classes with the S.D.O. Simdega. Girls and boys get co-education. The students were well disciplined, but rather shy.

The school is in difficulty for want of funds. This is a great handicap which does not permit of expansion. The school is striving to rise to the metric standard of the ~~hi~~ Two more classes have to be opened to reach the standard of the high school. The endeavour of the missionary people deserves encouragement. With a little more grant-in-aid the desired goal may be achieved. It is necessary, in my opinion, to raise the standard of the school to a high English school as there are no such schools within 20 miles.

The number of students are enough for such a school.

I advise the mission to appoint at least one more lady teacher. At present there is only one. She is getting a poor pay of Rs 15/- which is too small for the maintenance of the teacher in any decent manner. The boarders have got no kitchen garden. It is better to have one to provide vegetables as an item in the diet. Girls should have a sewing & needle work section & the boys an agricultural section.

Copy of the inspection note of the Deputy Inspector  
of schools, Lumla.

25<sup>th</sup> October 1944

27<sup>th</sup> October 1944.

In obedience to the District Inspector of Schools, Ranchi's  
memo no 5297 of 17-10-44 I came to Kinbel on the 25<sup>th</sup>-  
October 1944, to make necessary inquiry on the  
application of Public of Kinbel area in connection  
with the raising of the school to High English school  
standard, praying for permission to open Class  
VIII from January 1945.

Fortunately the proposed organising High school  
drive scheme committee happened to be at Kinbel, I  
discussed the question with them. Report will be  
submitted separately.

I inspected and examined the classes on 27-10-44.

All Teachers were present in duty. There has been  
some change in the staff since my last visit.

Former head master worked up to 5.7.1944 and then  
transferred to Burjha M.E. School. The new

Head master Mr. Alfred Lakra joined the school

on 9-9-44. During the absence of any Headmaster  
in the school, Babu Yunas Baga the 2<sup>nd</sup> master  
acted as the Head master in addition to his own duty.

I have to make some suggestion regarding the Head-  
master's allowance as I made in inspection notes  
dated  $\frac{23^{rd}}{25^{th}}$  January 1943.

Acquittance shows that the teachers have been paid  
up to September 1944. I am glad to note that  
now the 15% cut in pay has been abolished  
from July 1944.

Babu Y Baga  
will be granted  
allowance for  
acting as the  
Headmaster of  
the school for the period.

I observed that some furniture need repairing, which may be done.

I found the class rooms & children neat & clean.

Discipline of the school is good.

The case of Chaudhary -

be considered and  
may be given  
dearness allowance  
of Rs 3/- at least.

Chaudhary  
Head master  
The Chaudhary may be  
given dearness allowance  
if the School funds allow.

The school has a whole time servant who has to do lot of work in connection with school work then and some times is sent to Simdega ~~and~~ He is paid @ Rs 7/- P.m only and no dearness allowance. In this time of hardship to live on this sum is very difficult. I, therefore, suggest that he is paid at, at least, Rs 12/- a month.

The work will  
be started from  
January 1945 -  
A.B.

N.B. I am glad to note that according to the instructions of the Divisional Inspector of Schools one of the Teachers - Babu Abraham Raju - was deputed to Hazaribagh for the Scoutmaster ship Training. I hope that next the Scouting will be started in the school in near future.

Sir,

I have the honour to say that Mrs Bage was appointed as sewing mistress by the Head supervisor when she was at Koronjo and she continued her work at Kinkel even on the appointment of Miss S. Bakula. But now as the changes came in the head mastership and secretariats of the school, she is deprived of her work and her allowance is made to make an increment in the pay of the Miss. S. Bakula. This is nothing but the act of partiality on the part of the managing committee.

Enquiry made.

Sir,

I have the honour to state that my younger brother died when his daughter was a mere child. Since his death I have been her guardian. Her marriage will take place this year in the month of December 1944 and I am to bear up all her marriage expenses. But I am unable to get the required amount of money for the marriage ceremony.

I therefore most respectfully beg that you will be pleased to allow me to draw the sum of Rs 50 from my Provident fund deposit to meet the expenses required by the marriage ceremony.

Sir,

With reference to your letter no 950 of 7-11-44,  
I have the honour to say that this year the hostel  
will have no saving on account of the high prices  
of articles. The school has some amount of money  
and that is too in the savings bank and it will take  
three or four months to get the money from the  
savings bank as the secretary and the Head master  
have not yet submitted their specific signatures  
to the department for approval.

I therefore most respectfully beg that you  
would kindly get me Rs 50 as an advance from the

refunded when I get sum from my Provident fund

Copy of the Inspection Remarks of the Deputy Inspector of Schools, Gumla, on the Kinkel M. E. School, dated, the 21<sup>st</sup> October 1943. —

—X—

21<sup>st</sup> October 1943.

To-day I inspected the Govt. aided Kinkel M. E. School. The S. I. of the circle was with me and helped me in the inspection work. The school just re-opened to-day after the Puja holidays. All teachers were present in duty. There has been no change in the staff since my last visit. Acquittance shows that they have been paid upto September 1943. There is no trace in it whether my suggestion made in my last inspection regarding the acting allowance of Headmaster to the 2<sup>nd</sup> master was given ~~or~~ effect to. I am glad to note that in this school, though the grant-in-aid for the 2<sup>nd</sup> quarter ending 31-8-43 was received in this school late in September, payment every month ~~is~~ was regular & not delayed. It speaks of the good arrangement of the Headmaster in charge and the School Managing Committee.

the Headmaster.

Repairing of the roof of the school building just completed - white-washing of walls needed.

Headmaster to  
have the walls  
white-washed - done.

We examined the classes in various subjects. Specially, I devoted my time to class VII. Examined them in Hindi literature & Grammar, English, History, Geography & Hygiene - on the whole the progress appeared to be satisfactory.

Class VI - Hindi lit. - fairly good.

English Conversation - more practice is needed. Geography - fair.  
Practice should be given to be prompt to respond.

Class V - Progress made in Basic English is satisfactory.

History & Geography - fairly good.

Class IV - History & Geography - fairly good.

Basic English - Progress made is satisfactory.

In lower classes - progress made is satisfactory. I have only to emphasise that more practice is given in mental arithmetic. In Infant class progress made in three Rs is satisfactory.

Financially, the school is getting no aid for dearness allowance from any source, in this connection, I may invite reference to District Inspector's inspection notes ~~dated~~ dated, 27<sup>th</sup> January, 1940, and if the C. C. can abolish 15% cut from the teachers' pay in this time of hardship.

Sir,

With reference to your letter No 564, dated the 23<sup>rd</sup> June '44, I have the honour to inform that it is not safe for me to walk on foot a distance of about hundred miles across rivers and forests amidst these rains, to reach Burju.

I therefore, most respectfully request that I may kindly be allowed to work in the Kinkhel M. E. School till the end of this year and Mr. Alfred Lakra may kindly be asked to take over charge of the Burju M. E. School.

Dated, Kinkul, the 24<sup>th</sup> June 1944.

Sir,

With reference to your letter No 562, dated the 21<sup>st</sup> June '44, I have the honour to state that it is very very difficult for me to go to Burju during these rains, because: -

1. There are so many rivers on the way that many of them, sometimes, become impassable.

2. I cannot take my things from here with me during these rains, nor I can leave them here, yet unless I take some of my things with me I shall have much difficulty there at Burju.

3. There are no other means than walking on foot to go to Burju from here and I cannot say how many days the journey will take owing to the rains.

In the circumstances, Sir, I most respectfully request that I may kindly be allowed to work in the Kinkul M. B. School till the end of this year, and Mr. Alfred Lakra (who, I think, will have no difficulty to go to Burju) may kindly be asked to take over charge of the Burju M. B. School for this year. I shall be glad to join Burju M. B. School in January 1945.

I request to be kindly favoured with an early reply.

No. 636. A. 22-7-44.

G. H. 23.  
20/7/44.

Copy of the Inspection note of the Deputy Inspector of Schools, Gumla.

25th October 1944.

27th October 1944.

In obedience to the District Inspector of Schools, Ranchi's Memo No. 5297 dated 17-10-44 I came to Kinkel on the 25th October 1944 to make necessary inquiry on the application of Public of Kinkel area in connection with the raising of the school to High English school standard, praying for permission to open class VIII from January 1945.

Fortunately the proposal organising High school drive scheme committee happened to be at Kinkel. I discussed the question with them. Report will be submitted separately.

I inspected and examined the classes on 27-10-44. All teachers were present in duty. There has been some change in the staff since my last visit. Former headmaster worked up to 5-7-1944 and then transferred to Burju M.H. School. The new Headmaster Mr. Alfred Lakra joined the school on 9-9-44. During the absence of any Headmaster in the school, Babu Yunas Bage the 2nd master acted as the Headmaster in addition to his own duty. I have to make some suggestion regarding the Headmasters' allowances as I made in inspection notes dated 23rd/25th January 1943.

Babu Y. Bage will be granted allowance for acting as the Headmaster of the school for the period  
Sd/-A. Lakra.

Acquittance shows that the teachers have been paid up to September 1944. I am glad to note that now the 15% cut in pay has been abolished from July 1944.

Attendance of the day is noted below :-

To day 84% were found present. Absentees were reported to be ill.

I examined the classes in different subjects. To-day I specially devoted my time to class VII I tested them in Arithmetic, History, Geography, Hindi Literature and Grammar and English.

Teachers concerned asked to note for future guidance.

In Arithmetic I found them good. Hindi and Grammar good. English- some practice is needed. History and Geography--Very fair.

M.S.C. Examination commences from the 13th Nov. 44 No sent up.....37 boys, 13 girls.

Class VI. Arithmetic---All worked out the sum correctly.

Class V. Arithmetic--two sums were set. Almost all worked out correctly.

Class IV Geography & History--very fair.

Class I Multiplication Table....Good.  
Infant. Progress made is satisfactory.

Accounts--Balance shown under different heads up to the end of September 1944 is noted below :-

|                   |                      |
|-------------------|----------------------|
| Cash balance..... | Rs. 86-18-6.         |
| Repair.           | 171--1-0.            |
| Prizes.           | 18-11-6.             |
| Library.          | 31--4-0.             |
| Contingencies.    | 24--3-3.             |
| Games.            | 11--6-6.             |
|                   | <u>Rs. 343--8-0.</u> |
| Saving bank.      | 135--1-4.            |

The Hdmaster asked to do the needful. I observed that some furniture need repairing which may be done.

I found the class rooms and children neat and clean.

Discipline of the school is good.

The school has a whole timeservant who has to do lots of work in connection with school work and some times is sent to Sindaga. He is paid @ Rs.7/- P.M. only and no dearness allowance. In this time of hardship to live on this sum is very difficult. I, therefore, suggest that he is paid at, at least, Rs.12/- a month.

The Chankidar may be given dearness allowance if the school funds allow.

N.B. I am glad to note that according to the instructions of the Divisional Inspector of schools one of the teachers--Babu Abraham Kujur was deputed to Hazaribagh for the Scout Mastership Training. I hope that ~~xxxx~~ now the Scouting will be started in the school in near future.

Kinkel, the 24<sup>th</sup> June 1944.

Sir,

Most respectfully I beg to lay the following facts for your kind and favourable consideration: -

1. We had closed school for summer up to the 20<sup>th</sup> June 1944. Just on my return from home at the end of the vacation, I received a letter from the Head Supervisor Lutheran Schools, telling me that I have been transferred to the Burju Lutheran M. E. School with effect from the 16<sup>th</sup> June 1944, not on the ground of fault but because of need.
2. This transfer order was not received by me in time and I never, before this, thought that I would be transferred to the Burju M. E. School within this year as the Head Supervisor recently asked me to get my name cancelled from the Savings Bank Pass Book<sup>of</sup> the Burju M. E. School.
3. The transfer of my Provident Fund Pass Book after to the Simdega Sub-Post office was objected by the department on the understanding that my transfer to the Kinkel M. E. School was temporary. However, I got it transferred later on in October last. Now this transfer will again put me to the same difficulty. However I would have no objection to go to Burju if I would have received the transfer order in right time.
4. There are so many rivers on the way that many times it is difficult to cross them even on a ferry, so it is very very difficult for me to go to Burju during these rains.
5. It is difficult for me to take my things from here, nor I can leave them here, yet unless I take my things from here, I shall have much difficulty at Burju.
6. There are no other means than walking on foot to go from here to Burju and I cannot say how many days the journey will take owing to the rains.
7. Under article 885, of the B. & O. E.C., I think, I am not <sup>entitled</sup> bound to suffer such difficulties.

In the circumstances, Sir, I most respectfully request you to kindly advise the school authorities

to allow me to work in the Kinkel M. E. School till  
the end of this year and that the newly appointed  
Headmaster, Mr. Alfred Lakra (who, I think, will have  
little difficulty to go to Burju) may kindly be  
asked to take over charge of the Burju M. E.  
School for this year. I shall be glad to join the  
Burju M. E. School in January 1945.

The Local people submitted an application  
requesting to cancel the transfer order but  
it was rejected.

I have the honour to be,  
Sir

Your most obedient  
servant,

A. Baazong

Dear Sir,

In response to your Transfer  
order No. 444 dated Ranchi, the 7<sup>th</sup> June 44  
of the Headmaster, Mr. M. S. Hassa, from  
the Kinkal M.E. school to the Burju M.E.  
school, with effect from the 15<sup>th</sup> June  
1944, I beg most respectfully to  
state the decision of the M.C. meeting.

That Mr. M. S. Hassa should  
remain here on his service as the Headmaster  
M.E. school at Present, for it is very  
difficult to move such a long  
distance when the rainy season  
has burst and the services have  
ceased to run from Sindga.

That the test examination of  
the Class seven is in the month of July  
44, his presence to his students and  
school for all decisions and purpose, is  
necessary.

You are hereby requested most  
respectfully that this transfer order  
may be kindly cancelled for this  
session i.e. up to December 1944.  
For contact of your kindness we shall  
be much grateful.
